HLB partners with leading Robotic Process Automation innovator ElectroNeek

HLB, the global advisory and accounting network, has announced a strategic partnership with ElectroNeek, ElectroNeek is a leading global Robotic Process Automation vendor for Managed Service Providers, System Integrators and IT teams. Its technology allows bots to run without an RPA license in any environment, increasing the scalability of RPA initiatives and significantly driving down RPA implementation costs. This exciting new partnership will enable HLB firms to provide even greater client capacity and service experience through innovative technology that will automate accounting and give hours back to staff to focus on client advisory services.

Jim Bourke, HLB Global Advisory Leader, said *“A key driver of what we’re doing here at HLB is identifying and placing leading-edge technologies in the hands of all our firms around the globe. We know that through embracing technology we’ll continue to be empowered to deliver advisory services to our clients and partnering with ElectroNeek is only going to enhance our offering. This partnership is just one of the many ways we’re embracing technology to take our services to the next level.”*

This exciting new partnership between ElectroNeek and HLB speaks to HLB’s mission of helping HLB firms with their continued digital transformations and aligns perfectly with the network’s strategy of building a future-proof organisation of leading advisory professionals.

Quote from Affinity partner

Dmitry Karpov, co-founder and CIO of ElectroNeek, said

“Partnership with such a global and experienced Managed Services company as HLB International will allow us to increase the footprint of Robotic Process Automation in organisations all across the world. This business partnership goes beyond the technology and ElectroNeek’s team is committed to provide tools and best practices to accelerate the pace of digital transformation among HLB member firms and their clients”.

Affinity partner description

ElectroNeek is a leading Robotic Process Automation vendor for Managed Service Providers and IT teams. One of the central goals of the ElectroNeek Global Partnership program is to help service businesses grow and build market-leading RPA practices. ElectroNeek key products, Studio Pro IDE where customers can build the limitless amount of bots with no bot licenses, and SaaS Orchestrator where they can administer all their automations from the single control room, empower companies to provide scale automation infinitely, both internally and for their clients.

ElectroNeek's partnership with HLB International will expand the technology company's impact in the Accounting industry, already supported by the status of Sage's preferred RPA vendor and recently closed investment from AICPA.
